National Professional Qualification for Headship

The National Professional Qualifications (NPQs) are a group of widely recognised professional qualifications designed to meet the needs of education leaders in England. NPQs provide extensive training and support for current and aspiring leaders at all levels.

The existing NPQ for Headship has been reformed to accommodate the latest evidence-based findings and reflect the new Headteachers' Standards.

The National Professional Qualification for Headship (NPQH) is designed for school leaders who are, or aspire to be, a Headteacher or Head of School with responsibility for leading a school.

Individuals working in the role of Headteacher, or Principal, have a role which is both strategic and operational requiring a strong understanding of their educational communities and the colleagues they work with, lead, and manage.

The role requires a depth of expertise across several specialist areas, focussing on an ambitious vision for their school's continuous improvement, while also establishing a learning culture and environment in which staff and pupils can thrive.

The course curriculum develops skills that allow participants to be responsive to challenges they will encounter, and to identify and address persistent and common issues in school leadership. It also provides a network, common language, and access to continuous debate to ensure growth and development. This Programme is brand-new and designed in partnership with schools and expert organisations, ensuring all content is up to date and relevant to help participants face the challenges and ambitions of school leaders today.

- **An introduction and diagnostic assessment** to scaffold and frame your learning, identify gaps in your knowledge and direct you to the areas that are most relevant to you.
- **Tutor support sessions, led by a Local Lead Trainer** which will provide you with opportunities to bring your learning into context and collaborate and network with peers.
- **Lots of online evidence and examples** to introduce you to key ideas and demonstrate how you could implement these concepts.
- **A micro implementation task** to reinforce the overall approach to managing improvement and prepare you for the summative assessment.
- **Face-to-face and live online training** where together with your peers you'll learn through expert-led dialogue, collaborative activities, and structured practice of new techniques.
- **A formative assessment** activity to check your understanding and confidence, signpost you towards further learning and provide feedback that's individual to you.

The role requires a depth of expertise across several specialist areas, focussing on an ambitious vision for their school's continuous improvement, while also establishing a learning culture and environment in which staff and pupils can thrive.

Leading improvement as a Headteacher

All our NPQs begin with an introduction to our approach to capacity development and managing improvement through implementation. This approach is then embedded throughout the duration of the Programme.

From this starting point our Leadership NPQs guide participants through modules examining three layers of influence: *school culture*; the *organisational conditions* which bring this culture to life; and how these conditions can promote excellent teaching in every *classroom*.
